Leaving a Legacy
Planned giving allows you the opportunity to make a charitable gift to a worthwhile charity, while providing personal or family financial benefits. With a planned gift, the charitable organization receives the assets at some time in the future – often after the donor has received income from the assets.

The mission of Unity Health is to improve the quality of health and well-being for the communities we serve through compassionate care. As the largest employer in an eight-county area with more than 2,000 associates, Unity Health associates and partners strive to create a healthy community by creating a healing environment that enables people to reach their highest potential for health.
